How have Black artists throughout the 20th century used music to speak about racial injustice in America?

In this lesson, you will:

• Consider the connections between social movements and songs

Watch **this video** on the relationship between the Black Lives Matter movement and Kendrick Lamar’s “Alright.”
Consider or ask a friend:

• How is the song being presented in the clip? What are the circumstances under which this song is being sung?

• According to the clip, why did the protesters at Ferguson choose not to sing “We Shall Overcome,” a song associated with a civil rights movement from an older generation?

• How do the people in the clip argue that “Alright” is an appropriate song for the context of a protest? Do you agree or disagree?
Examining **these lyrics**, consider or ask a friend:

- What about these lyrics might make “Alright” an appropriate protest song?

- How might these lyrics express the feelings of people protesting police brutality and the murders of Michael Brown, Eric Garner, and many others?

- How might chanting this song be helpful for protesters? What do you think this song represents to them? What about this song might make it controversial?
DISCUSSING “ALRIGHT”

Watch this video offering further discussion on Lamar’s “Alright.”
Consider or ask a friend:

- Why might the Civil Rights-era Washington Post writer mentioned in the clip have found “Alright” to be “foul and disgusting?”

- In the clip, Nelson George argues that the assertive lyrics to “Alright” is what makes it effective. What do you think makes a song effective for use at protests?

- What do you think Daphne Brooks means when she says that “Hip Hop Swagger” can be a tool to fight everyday battles? What everyday battles might she be referring to in this context?
Kendrick Lamar’s “Alright” is part of a long legacy of anthems by Black musicians in protest of unjust treatment, either at the hands of police officers or of vigilantes who are rarely held accountable for their crimes.
