

Extension Activity - Cultural Identity Self Portraits

Create a portrait that shares symbols of your cultural identity. Have a family member or friend trace the outline of your silhouette on a piece of paper, or take a photo and trace the outer lines to create a silhouette. Then fill the space with images that share more about who you are based on cultural background, your age, where you come from, where you go to school, things you like to do, or things that are important to you.

See some examples below:
